## OUR DERMATOPATHOLOGY SPECIALISTS

The pathologists of APMG have been providing dermatopathology consultation service since 1956. Today, Dr. Julia Chan, Dr. Leonard Valentino, and Dr. Robert Rinehart are the pathologists of our dermatopathology service. With over 75 years of combined experience, our group is the service of choice for many dermatologists in the counties we serve. We have vast experience in the interpretation of atypical nevi, early state melanoma, and unusual skin neoplasm.

**Julia S. Chan, M.D.** is board-certified in anatomic and clinical pathology and in cytopathology with expertise in dermatopathology. Recruited from the faculty of the Department of Pathology at the University of California, San Francisco, Dr. Chan has been a principal pathologist in our Los Gatos lab since 1988, specializing in dermatopathology and all aspects of outpatient pathology. A founding partner of APMG, Inc., Dr. Chan is the current president of the organization and medical director of the Los Gatos lab, while also serving as assistant clinical professor at the University of California, San Francisco. Dr. Chan received her medical degree from the University of Illinois at Chicago and completed her pathology training at the University of California and San Francisco General Hospital.

**Leonard A. Valentino, M.D.** is board-certified in anatomic and clinical pathology, dermatopathology and nuclear medicine. He is currently president of the professional staff at Sequoia Hospital in Redwood City. In addition, Dr. Valentino serves as the medical director of the Bone Density Center of The Peninsula, and as an assistant clinical professor of pathology (dermatopathology) at the University of California, San Francisco. Dr. Valentino received his medical degree from Loyola University, Stritch School of Medicine in Chicago, Illinois and completed his pathology residency at the University of California, San Francisco.

**Robert M. Rinehart, M.D.** joined the group in 1965 while serving as an associate pathologist on the staff of Santa Cruz County Hospital. In 1971, he assumed his current position with APMG in Los Gatos on a full-time basis. Dr. Rinehart completed his medical degree at the University of California, San Francisco and continued at the University of California to complete his pathology residency. He is board-certified in anatomic and clinical pathology and in dermatopathology. In addition, he has special competence in radioisotope pathology. Dr. Rinehart's commitment to the growth of his profession is evidenced by his service in various professional organizations and as an inspector for the Commission for Laboratory Inspection and Accreditation with the College of American Pathologists. He is now primarily dedicated to dermatopathology
