

Specialized Podiatric Testing

BETTER DIAGNOSTICS. BETTER PATIENT CARE.

APMG delivers diagnoses of lesions unique to the foot.

- Results delivered in 24 hours
- Board-certified dermatopathologists review skin biopsies
- Evaluation of the nail plate for presence of fungal hypha (PAS stain)
- Analysis of bone with detailed histological evaluation of joint cartilage for rheumatoid arthritis, osteoarthritis, gout and infection
- Reports can be "auto-faxed" directly to our client's office
- Local client service representatives available in the field to meet your needs
- Comprehensive managed care coverage

Our advanced testing makes your practice more efficient.
